From the Office of the Chief

By : Ronald A. Lawrence

Crime rates for the month of January remained lower when compared to January 2017. Violent crime, in particular, continues to decline with an overall drop at the end of 2017 by 11% and a decline in January 2018 by 24% (when compared to January of 2017). Violent crime for the month of January 2018 was down in aggravated assault, simple assault, and remained flat in the categories of rape and homicide. The only violent crime category that saw a slight increase in January 2018, when compared to the same month in 2017, was robbery. This decrease in violent crime is great news for Citrus Heights as this comes at a time when violent crimes in other California communities saw a significant increase. According to early FBI/DOJ statistic reporting, early indications show that of the 73 largest and medium-sized California cities listed in the report, 56% of those saw an increase in violent crime during 2017, while Citrus Heights experienced an 11% decrease.

Property crime in Citrus Heights for January also saw a decrease of 16% when compared to January 2017. Larceny, motor-vehicle theft, and arson-related offenses were all down for this past month, while burglary experienced an increase of 26%.

Traffic collisions for January are down considerably when compared to the same month in 2017, with a total decrease of 20%. Property damage collisions were down 19%, and injury collisions were down 18%. We did not have any traffic fatalities in January 2018. DUI related traffic collisions are up slightly for January and we continue to make DUI enforcement a priority.

For the past month, your police department has been specifically focused on combating burglaries and thefts from vehicles as well as DUI enforcement; these concentrated efforts will continue through February and beyond. We greatly encourage our community to practice heightened awareness and remind you to always lock your car when parked. Do not leave anything of value in the vehicle, visible or not, to be safe. As well, always plan ahead to utilize a ride-share or designated driver when drinking alcohol. Getting ripped off is never fun, but being arrested for a DUI will have a dramatic, negative impact on your life, and, potentially, those around you.

Stay safe Citrus Heights!

Voting has changed in Sacramento County!

How to Vote in Three Easy Steps :

Sacramento County is one of five counties in California to implement the Voter's Choice Act (VCA), expanding voting opportunities for all residents. Beginning with the June 2018 Primary Election, all registered voters will receive a ballot in the mail, and Vote Centers will take the place of traditional polling sites. The Sacramento County Department of Voter Registration and Elections explains the voting process in three simple steps:

Get It - Twenty-nine days prior to Election Day, all voters will be mailed a ballot. *Look for your pink envelope!*

Mark It – Mark your ballot and sign your envelope. Voters with disabilities can download their ballot at home using the new accessible Vote by Mail system.

Return It – Return your marked ballot in the mail or in person at any Vote Center or Ballot Drop Box.

Vote Centers are replacing polling places, and:

...open 10 days prior to Election Day

...you decide which Vote Center to use

For additional information about the June 2018 Primary Election, the VCA and to learn more about how voting is changing in Sacramento County, visit the Department of Voter Registration and Elections website at www.Elections.SacCounty.net
