[REDACTED] and the street is narrow and little parking is available. My concern is if there is going to be vehicle or pedestrian access to the trail from Oaklawn way as vehicle parking will end up on a way property. Also if they extend Oaklawn way and add parking it will cause traffic on a narrow street with many children living there.

I do not want this behind my house
or property. The city can not keep vagrants
off the Auburn Blvd bike trail and that is
facing a street. There is no way they can
keep it safe, behind homes! No No No!!!

Is there allocated policing for the trails
The homeless campers - drugs etc. Already
a problem that is not being addressed.
The result will be falling property values!
BPD / DEA for the safety of our
communities Current policing is stretched
thin!

Thank you for putting together this event.

We are currently neutral on the project.

Our home backs up to the trail where the current SHWD easement deadends behind the Washburn Oaks T-11. We are interested in learning more about proposed lighting of the trail (we are fans of this), fencing, and level of police/sheriff patrol envisioned.
